

Eycasa Battery Set

Art.-Nr. CASA30150

- Battery set for Eycasa door phone station
- For continuous operation of a station not connected to line power
- For backup power supply of a station connected to line power

The user doesn't want to connect his Eycasa intercom unit to the power supply or there isn't a bell transformer at the place of installation. In this case the unit can be run on the batteries (6x AA 1,5 V) provided in this set. The batteries will provide power for approx. 6 months.

Technical Data
