

Smartvest Wireless-Flood Detector

Art.-Nr. FUWM35000A

-
- Detects liquids and reliably protects against water damage.
 - Ideal for monitoring cellars, washing machines, and drains.
 - Flexible installation of water level sensor. (Length of sensor line: 1.8 m)
 - Immediate triggering of alarms with the built-in high-volume 90 dB siren
 - Low battery notification sent to the Smartvest alarm control panel
 - Test button for manual self-testing and test alarms
-

The Smartvest Wireless Water Detector is an extension module of the Smartvest Wireless Alarm System. It reacts to water and other liquids and signals these events to the wireless alarm control panel. The Smartvest Wireless Water Detector consists of a transmitter and a sensor. These two units are connected via a cable that can be up to 1,8 metres long. The sensor reacts to water and reports it to the alarm control panel. Water leaking from broken pipes or from burst washing machine hoses is detected quickly so that quick action can be taken to reduce the damage.

Smartvest Wireless-Flood Detector

Art.-Nr. FUWM35000A

Technical Data

Alarming	Acoustic warning signal
Areas of usage	Inside
Battery operation	Yes
Battery quantity	4
Battery type	AA (1,5V)
Color	White
Compatible with Secvest	No
Compatible with Smartvest	Yes
DC voltage supply	6V
Display	LED
Gross weight	0,31kg
Housing material	Plastic
Max. battery life	2year(s)
Max. humidity	93%
Max. operating temperature	40°C
Min. humidity	10

Min. operating temperature	0°C
Net weight	0,215kg
Power consumption	34,3mA
Power consumption Standby	0,017mA
Radio frequency	868MHz
Sensor type	Contact sensor
Sound pressure	90dB
Tamper protection	No
Transmission power	4,5 dBm
Type of detection	Resistance measurement
Wireless modulation	FSK
Wireless range	(Depending on installation) 30 - 100m
