4 MPx 24/7 outdoor surveillance

The IP Tube provides video streams in 4 MPx resolution with up to 25 fps. The dust- and water-resistant IP67 housing is well suited for outdoor use. Due to integrated IR LEDs with a range of up to 50m, the camera can be used day and night. Access to the camera is possible at any time via app.

Universally applicable

The IP Tube IPCB64515B is designed for universal usage overviewing long distances due to the combination of IP67 weatherproof housing, 50m IR range and a 4 mm lens with a horizontal viewing angle of 88°.

Recording and compatibility

IP Tube 4 MPx (4 mm)

Art.-Nr. IPCB64515B

The recording can be done either on an ABUS recorder, 3rd party video management software or locally on a microSD card. Furthermore, the camera is compatible with the ABUS Secvest alarm center and the ABUS access control system wAppLoxx.

Comfortable installation

The IP Tube is mounted on the ceiling or optionally on the wall. We recommend the ABUS installation box (TVAC31350), which allows a protected cabling to wall or ceilings. The free "ABUS IP Installer" software is available for simple setup in the network. The software finds the camera quickly and easily within the network and supports during the installation process.

Note: The camera does not come with a power supply, so we recommend our AC adapter.
