

4x Signal Distributor

Art.-Nr. TV8726

- Transmission of a video signal to up to four monitors or recorders
- 1 video input (BNC/1 Vpp, 75 ohm)
- 4 video outputs (BNC/1 Vpp, 75 Ω)
- Suited for PAL and NTSC

Use the 4x signal distributor to transmit the video input signal without loss to four monitors. Connect your camera to the signal distributor's video input and connect the monitors to the video outputs. Four BNC video outputs are provided.

Technical Data

DC voltage supply	12V
Height	27mm
Length	65mm
Max. operating temperature	45°C
Min. operating temperature	-10°C

Video input	1 BNC
Video input impedance	75 Ω
Video input level	0,5V _{ss} – 1V _{ss}
Video output level	1 V _{ss}
Width	137mm
