

PoE injector

Art.-Nr. TVAC25000

- For transmitting power and data via network cable to all PoE capable network cameras
- Transmission range up to 100 m
- Meets IEEE 802.3af standard

Minimise the need for cables when installing IP cameras. Using the Power over Ethernet (PoE) injector, the data and IP camera power supply are fed into an Ethernet line. Power is then supplied exclusively via the network cable - a separate power line is no longer necessary. Additionally, you are no longer reliant on an available power supply (socket etc.) when selecting the camera location.

Technical Data

Certifications	CE
Connection type	2x RJ-45 (EIA 568A and EIA 568B)
Data output	10/100
Height	36mm
Input current	0,4 A @ 110VAC / 0,2 A @ 220 VAC
Input voltage	100 – 260 VAC (47 - 63 Hz)
Length	76mm
Max. humidity	90%

Max. operating temperature	50°C
Min. operating temperature	0°C
Net weight	0.15kg
Output	1xRJ-45 (PoE, data & voltage)
Output power	15,4
Output voltage	48 V DC
Width	86mm
